### **Filing of a Petition to Declare a Resolution of the General Meeting Invalid**

A shareholder of the Company, Ing. Gabriel Fülöpp, has filed a petition with the competent court pursuant to Section 428 of Act No. 90/2012 Coll., seeking a declaration of invalidity of a resolution adopted at the Company’s general meeting held on 30 January 2026, specifically the resolution under item 5 of the agenda (*amendment to the Company’s Articles of Association in relation to the General Meeting*). By the respective resolution of the general meeting, amendments to Articles 6.2 and 6.3 of the Company’s Articles of Association were adopted, consisting of: (a) reducing the quorum requirement for the general meeting from more than 75% of all shareholders to more than 50% of all shareholders; and (b) reducing the voting threshold for the adoption of specified resolutions of the general meeting from the existing 75% of all shareholders to more than 50% of shareholders present.

The specific grounds stated in the petition seeking a declaration of invalidity of the general meeting resolution are identical to the grounds set out in the written protest submitted by the same shareholder during the respective general meeting. The Company’s Board of Directors had therefore already had the opportunity, prior to receipt of the petition, to review the alleged grounds for invalidity in greater detail and considers them unfounded. However, the outcome of the ongoing court proceedings concerning the filed petition cannot be anticipated.
